**Notes:**

This does not include the regional native suppliers. We encourage you to use these local suppliers as you are supporting local economy and they offer eco source their material so better suited to your conditions.

This list does not include your local garden centers as it focuses on specialist nurseries. However your local nursery is a great place to start with tree crops. They often can give advice on what works / does not work for your area. As well as provide a large range of trees.

**Disclaimer:**

Although we have done our best to insure accuracy we take no responsibility for any decisions based upon incorrect information.

**Updates / corrections welcome:**

nztcaweb@gmail.com

**Tree sales:**

BoP, Waikato and Auckland branches all currently have a tree sale once a year in Winter. We encourage you to also connect with these branches for details.

**Trademe:**

This list does not seek to catalog any Trademe sellers. There are many and Trademe can be an excellent source of plant material. But one seller does get a mention nchun, a Tree Cropper who has unique and unusual trees.
